**ECLIPSE //**

**ECLIPSE //**

The Eclipse range begins with a modern mesh back chair featuring beautiful design lines from its structural back plastic surround. White components contrast against the black mesh and sliding lumbar support, making the Eclipse chair an eye-catching statement within any working environment.

**ECLIPSE //**

Also available in black, adjustments come from the mechanism, offering synchronised seat and back tilt, seat height adjustment and body weight tensioner. An integral sliding lumbar support is featured on the mesh back whilst height adjustable arms can also be specified for increased user comfort.

**ECLIPSE //**

The matching leg chair from Eclipse offers the same user comfort and visual design cues as the swivel chair. The leg chair is also available in black and white and can be specified with a stylish, uniquely designed fixed arm if required.
