

The MX05 range of stools have a fully welded A frame design constructed in 22mm high tensile steel on the main frame as opposed to the 19mm normally found on this type of product. This ensures the ultimate durability especially when coupled with the chairs strengthened supports.

The MX05 stool features a seat and back and is available in a range of 3 seat heights for the perfect match to any working height.

- Flint frame as standard, silver optional extra
- Hardwearing feet
- 'A' frame design gives vertical stacking for space efficiency
- Three seat height options
- Fully welded steel tube frame, with strengthened seat and back supports
- Flexible and suitable for most environments
